

ATTENTION: WEEPING WATER RESIDENTS

Now that the winter season has come upon us, please remember that the following areas have been designated as the “Snow Emergency Route.”

East Street from Eldora Avenue south to the City Limits

North Commercial Street from “H” Street to “D” Street

“D” Street to 144th Street

Eldora Avenue from Randolph Street to Garfield Street

All along the “Designated Truck Route”

Parking of vehicles along the snow emergency route is prohibited when there is an accumulation of snow, sleet, or freezing rain, and can result in vehicles being towed away.

As it is difficult to adequately remove snow in other residential areas when vehicles are left parked on city streets, your cooperation is requested in moving vehicles to another location until your street has been cleared. Failure to do so can result in no snow removal on a street which does not allow safe access of city equipment or towing of vehicles.

Maximum time limit for parking vehicles on public streets:

72 Consecutive Hours in a Residential District

24 Consecutive Hours in any other District

**YOUR COOPERATION HELPS MAKE OUR JOB OF PROVIDING
ADEQUATE SNOW REMOVAL MUCH EASIER**
